

PRINCE2® Practitioner

Are you looking for ways to increase your skills as project manager? Do you want to apply PRINCE2 effectively and bring more structure to your projects? And would you like to get your skills acknowledged with an internationally recognized certificate? Then this course is something for you. During this training you will be working in groups with an extensive case study and apply various aspects of PRINCE2 immediately. And you will learn how to tailor PRINCE2 to your needs. The experienced trainer will give you additional tips and tricks and help you to prepare for the exam. Of course Key Trainer is part of the learning aids.

Target audience

You are a project manager or ambitious to become one, familiar with the basics of PRINCE2 and you need to intensify your knowledge of the methodology.

You wish to manage your projects better and receive practical advice how to apply and make PRINCE2 successful in your organisation.

Duration

The course lasts 2 days starting from 9.30 till 17.00 o'clock.

A few weeks in advance you will receive your PRINCE2 manual and an access code for Key Trainer. The pre-course reading guides you through all the basics and ensure you start well prepared at the first day of the training

Results

After the course candidates should be able to apply and understand how to tailor PRINCE2 effectively to a project within an organization environment supporting PRINCE2. Specifically candidates should:

- 1 understand the relationships between the roles, management products, principles, themes, techniques and processes
- 1 be able to apply the principles, themes and processes to a project
- 1 be able to create and assess management products.
- 1 be able to tailor and adopt PRINCE2
